

SANA ISHAQ

Senior Product Designer | eCommerce, SaaS & Enterprise Platforms
sanaishaq47@gmail.com | (+92) 331 6116 507 | Lahore, Pakistan | [LinkedIn](#) | [Portfolio](#)

PROFILE SUMMARY

Product Designer with 5+ years of experience designing digital products that improve conversion, reduce friction, and drive measurable business growth. Experienced across eCommerce, SaaS, GovTech, enterprise platforms, and dashboard products, working with startups, agencies, and global brands.

Led product redesigns that increased revenue by 30%, reduced cart abandonment by 60%, and improved SaaS trial-to-paid conversion by 28%. Combines user research, behavioral analytics, usability testing, and scalable design systems to create experiences that balance user needs with business goals.

Recognized for translating complex requirements into intuitive product experiences while collaborating closely with founders, product managers, engineers, and stakeholders.

CORE COMPETENCIES

Product Design: UX Strategy, Information Architecture, User Flows, Wireframing, Prototyping, Interaction Design

Research & Optimization: User Research, Usability Testing, Session Recordings, Heatmaps, A/B Testing, Conversion Rate Optimization

Design Systems: Design Systems, Component Libraries, Design Tokens, Responsive Design, Accessibility (WCAG 2.1 AA)

Platforms: SaaS, eCommerce, Enterprise Software, Dashboards, GovTech, Mobile Apps

Tools: Figma, FigJam, Jira, Notion, Slack

SELECTED IMPACT

- Increased eCommerce revenue by 30% through a complete platform redesign for Haier Mall.
- Reduced mobile cart abandonment by 60% by rebuilding checkout architecture and simplifying purchase flows.
- Improved SaaS trial-to-paid conversion by 28% through onboarding optimization and progressive disclosure.
- Delivered 80+ successful product design engagements while maintaining a 100% Job Success Score on Upwork.
- Built scalable design systems that reduced design iteration and developer handoff time by up to 30%.

PROFESSIONAL EXPERIENCE

Lead UI/UX Designer | eCommerce Product Design

April 2024 – June 2025

Pricoo (JWOnline) | Lahore, Pakistan

Led product design for Haier Mall, one of Pakistan's largest electronics eCommerce platforms.

- Directed the end-to-end redesign of Haier Mall's digital shopping experience, resulting in a 30% increase in online revenue within 90 days.
- Reduced mobile cart abandonment by 60% by redesigning checkout workflows using behavioral analytics and usability testing insights.
- Created a scalable component-based design system that reduced design iteration time by 30% and accelerated feature delivery.
- Collaborated with product, engineering, and business teams to align user experience improvements with commercial objectives and product roadmaps.

Senior UI/UX Designer | eCommerce & SaaS (Top Rated)

January 2018 – Present

Upwork | Remote

Partnered with startups, SaaS companies, eCommerce brands, and founders across North America, Europe, the Middle East, and Australia.

- Delivered product design solutions across 80+ projects while maintaining a 100% Job Success Score and Top Rated status.
- Increased SaaS trial-to-paid conversion by 28% through onboarding redesign and friction-reduction strategies.
- Reduced checkout abandonment by 25% for a direct-to-consumer furniture brand through improved navigation, product discovery, and cart experiences.

- Designed scalable design systems and component libraries that improved consistency and reduced development effort across multiple products.
- Facilitated stakeholder workshops, product discovery sessions, and usability reviews to align design decisions with business goals.

UI Designer | Enterprise, GovTech & SaaS Platforms

October 2022 – September 2023

Red Blue Blur Ideas (RBBi) | Lahore, Pakistan

Worked on enterprise, government, and large-scale digital transformation projects across the UAE and Saudi Arabia.

- Joined a SaaS project mid-delivery and rapidly onboarded to existing workflows, enabling uninterrupted sprint execution.
- Contributed to the successful delivery of multiple enterprise and government products through close collaboration with UX researchers, product managers, and developers.
- Conducted design quality audits during development, ensuring implementation consistency and adherence to accessibility standards.
- Delivered product interfaces across GovTech, transportation, enterprise, and retail sectors, including projects for UAE and Saudi-based organizations.

Lead Product Designer | Luxury Fashion-Tech & eCommerce

September 2021 – August 2022

Kalon Couture | Lahore, Pakistan

Led product design initiatives across luxury fashion, eCommerce, and wellness platforms.

- Designed and launched a 3D product customization experience that increased engagement by 35% and boosted high-value custom orders by 20%.
- Reduced checkout abandonment by 20% by simplifying purchase flows and introducing trust-building design patterns.
- Increased repeat visits by 35% by redesigning the customer journey across eCommerce and class-booking experiences.
- Built a comprehensive design system and UI library that reduced developer handoff effort and improved implementation consistency.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Google UX Design — Foundations of User Experience Design
- Accenture Digital Skills — User Experience
- LinkedIn Learning — Design Thinking: Putting the Customer First
- Accessibility-first design practices following WCAG 2.1 AA standards
