Collaboration & Process: Stakeholder Management, Cross-functional Collaboration, Sprint Planning, Agile
Platforms & Verticals: eCommerce, SaaS, GovTech, Wellness, LMS, Fashion, Automotive, Electronics, Furniture

PROFESSIONAL EXPERIENCE

Lead UI/UX Designer | eCommerce Product Design

April 2024 – June 2025

Priscoo (JWOnline) | Lahore, Pakistan

- Led end-to-end redesign of Haier Mall's eCommerce platform from UX strategy and information architecture through Figma execution and developer handoff driving 30% revenue growth within 90 days and directly impacting GMV.
- Eliminated 60% of mobile cart abandonment by rebuilding the checkout flow from scratch using behavioural analytics and usability testing the highest-impact UX change in the platform's history.
- Reduced design iteration time by 30% by establishing a scalable Figma component system and design token library, enabling faster product releases without quality loss.
- Collaborated cross-functionally with product managers, engineers, and business stakeholders to align design decisions with revenue targets and sprint cadences.

Senior UI/UX Designer | eCommerce & SaaS (Top Rated)

January 2018 – Present

Upwork | Remote

- Maintained a 100% Job Success Score across 80+ projects spanning B2B, B2C, DTC eCommerce brands, SaaS startups, and mobile apps sustaining Top Rated freelance status over 7+ years.
- Increased trial-to-paid conversion by 28% for a SaaS dashboard by redesigning onboarding flows and implementing progressive disclosure patterns informed by drop-off analytics.
- Reduced checkout abandonment by 25% for a DTC furniture brand by restructuring product discovery and cart UX, validated through A/B testing and heatmap analysis.
- Delivered Figma-first design systems with QA-ready component libraries and design token documentation, eliminating developer handoff delays across all engagements.

UI Designer | Enterprise, GovTech & SaaS Platforms

October 2022 – September 2023

Red Blue Blur Ideas (RBBi) | Lahore, Pakistan

- Onboarded mid-project onto a live government SaaS platform absorbed 3 completed sprints' worth of UX research, flows, and design decisions independently within one day, and began producing UI the following morning, maintaining sprint continuity without disruption.
- Collaborated within a cross-functional UX and UI team to deliver the remaining 4 sprints on schedule, applying the established design system consistently and presenting design decisions to stakeholders in client-facing sprint reviews.
- Conducted a thorough UI audit during the development phase, identifying and resolving visual inconsistencies before release to ensure the final product matched the approved design system and accessibility standards.
- Delivered UI across multiple concurrent projects including RTA (government transport), RAK DAO, Extra (Saudi-based eCommerce), and AWR Rostamani spanning GovTech, retail, and enterprise verticals across the UAE and KSA markets.

Lead Product Designer | Luxury Fashion-Tech & eCommerce

September 2021 – August 2022

Kalon Couture | Lahore, Pakistan

- Launched a 3D interactive product customisation experience that increased user engagement by 35% and drove a 20% uplift in high-value custom orders, designed from MVP wireframes to production release.
- Reduced checkout abandonment by 20% for the DTC mobile purchase flow by introducing trust-focused UI patterns and simplifying steps-to-purchase a methodology later refined at Pricoo to achieve 60%.
- Increased repeat visit rate by 35% for a yoga eCommerce vertical by unifying shop and class scheduling into one coherent, low-friction experience.
- Cut developer handoff time by 30% by building a comprehensive Figma UI kit and design system with reusable components and full annotation documentation.

EDUCATION

Bachelor of Science, Computer Science

University of the Punjab, Lahore

2015 – 2019

Master of Computer Science (MCS)

Virtual University of Pakistan

[Year]
