

SANA ISHAQ

Senior UI/UX Designer | eCommerce, SaaS & Enterprise Platforms
sanaishaq47@gmail.com | (+92) 331 6116 507 | Lahore, Pakistan | [LinkedIn](#) | [Portfolio](#)

PROFILE SUMMARY

Senior UI/UX Designer with 5+ years of experience designing user-centered digital experiences that improve conversion, reduce friction, and drive measurable business growth. Experienced across eCommerce, SaaS, enterprise platforms, GovTech products, and dashboard applications, collaborating with startups, agencies, and global brands across North America, Europe, and the Middle East.

Proven track record of delivering business impact through UX strategy, user research, usability testing, conversion optimization, and scalable design systems. Led redesign initiatives that increased online revenue by 30%, reduced cart abandonment by 60%, improved SaaS trial-to-paid conversion by 28%, and enhanced engagement across web and mobile experiences.

Skilled at translating complex business requirements into intuitive, accessible, and conversion-focused user experiences while collaborating closely with stakeholders, product managers, developers, and cross-functional teams.

Actively leverages AI-assisted design workflows using ChatGPT, Claude, Google Stitch, and other emerging tools to accelerate research, ideation, content structuring, prototyping, and design decision-making while maintaining a strong user-centered design process.

CORE COMPETENCIES

- Built scalable design systems that reduced design iteration and developer handoff time by up to 30%.
- Improved engagement by 35% through the design of interactive customization experiences and optimized customer journeys.

PROFESSIONAL EXPERIENCE

Lead UI/UX Designer | eCommerce Product Design

Pricoo (JWOnline) | Lahore, Pakistan

April 2024 – June 2025

Led product design for Haier Mall, one of Pakistan's largest electronics eCommerce platforms.

- Directed the end-to-end redesign of Haier Mall's digital shopping experience, resulting in a 30% increase in online revenue within 90 days.
- Reduced mobile cart abandonment by 60% by redesigning checkout workflows using behavioral analytics and usability testing insights.
- Created a scalable component-based design system that reduced design iteration time by 30% and accelerated feature delivery.
- Collaborated with product, engineering, and business teams to align user experience improvements with commercial objectives and product roadmaps.

Senior UI/UX Designer | eCommerce & SaaS (Top Rated)

January 2018 – Present

Partnered with startups, SaaS companies, eCommerce brands, and founders across North America, Europe, the Middle East, and Australia.

- Delivered product design solutions across 80+ projects while maintaining a 100% Job Success Score and Top Rated status.
- Increased SaaS trial-to-paid conversion by 28% through onboarding redesign and friction-reduction strategies.
- Reduced checkout abandonment by 25% for a direct-to-consumer furniture brand through improved navigation, product discovery, and cart experiences.
- Designed scalable design systems and component libraries that improved consistency and reduced development effort across multiple products.
- Facilitated stakeholder workshops, product discovery sessions, and usability reviews to align design decisions with business goals.

UI Designer | Enterprise, GovTech & SaaS Platforms

October 2022 – September 2023

Red Blue Blur Ideas (RBBi) | Lahore, Pakistan

Worked on enterprise, government, and large-scale digital transformation projects across the UAE and Saudi Arabia.

- Joined a SaaS project mid-delivery and rapidly onboarded to existing workflows, enabling uninterrupted sprint execution.
- Contributed to the successful delivery of multiple enterprise and government products through close collaboration with UX researchers, product managers, and developers.
- Conducted design quality audits during development, ensuring implementation consistency and adherence to accessibility standards.
- Delivered product interfaces across GovTech, transportation, enterprise, and retail sectors, including projects for UAE and Saudi-based organizations.

Lead Product Designer | Luxury Fashion-Tech & eCommerce

September 2021 – August 2022

Kalon Couture | Lahore, Pakistan

Led product design initiatives across luxury fashion, eCommerce, and wellness platforms.

- Designed and launched a 3D product customization experience that increased engagement by 35% and boosted high-value custom orders by 20%.
- Reduced checkout abandonment by 20% by simplifying purchase flows and introducing trust-building design patterns.
- Increased repeat visits by 35% by redesigning the customer journey across eCommerce and class-booking experiences.
- Built a comprehensive design system and UI library that reduced developer handoff effort and improved implementation consistency.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Google UX Design — Foundations of User Experience Design
- Accenture Digital Skills — User Experience
- LinkedIn Learning — Design Thinking: Putting the Customer First
- Accessibility-first design practices following WCAG 2.1 AA standards
